

SHEEP LICK FEEDER

GALVANIZED STEEL - FULLY WELDED - NO TEK SCREWS - LIFTING SUPPORT UNDER TRAY

Height 1500 - Width 1060 + 400 for Shelter Wings - Capacity 24 Bag

- No more wasted grain
- No gorging
- Safe for lambs
- Easily adjusted to control grain flow
- Can be lifted with forks when full
- Hold Two Tonne Wheat (24 Bags) approx. 2 Cubic Metres

A Study was done using 600 lambs. Half were fed using 2 conventional feeding bins and the other half were fed using 2 lick feeding bins. After 3 months 20 from each mob were weighed and were found to be approximately the same weight. The ratio of grain saved by using the lick feeding system was 3 - 1.
